

POCKET METER CO., Bluffton, Ohio.

STUART-HOWLAND CO. 4-5 Winthrop Sq. 261-287 Devonshire S

Boston, Mass.

EADRITE Meters show the exact condition of your batteries. Each instrument is separately adjusted to a high grade standard and has an individual hand drawn scale, insuring great accuracy. The magnets are

forged from high grade imported Tungsten magnet steel, and carefully aged so that there is no change in the reading of the instrument after it leaves our factory. The indications are practically DEAD BEAT, allowing quick tests to be made. Will read in any position. The flexible cord is detachable and can be dispensed with for testing single cells.

We supply each instrument with a written GUARANTEE for ONE YEAR against inaccuracy, imperfect workmanship or inferior material. These meters are neatly finished and built with the care of a watch They are durable and with proper care should last a life time.

All meters are separately boxed and labeled with full directions.

## PRICE LIST
